2). Place one sliding door bottom rollers in the back front bottom track (use both hands to hold the guide pins on 2 ends of door). Pivot the top of the door to align the top guide pins with the back upper track on the chest. Push the button on the back of the top guide pins to release the lock allowing the pins to pop into the top guide track. (Illustration#2)

Repeat steps for 2nd sliding door.

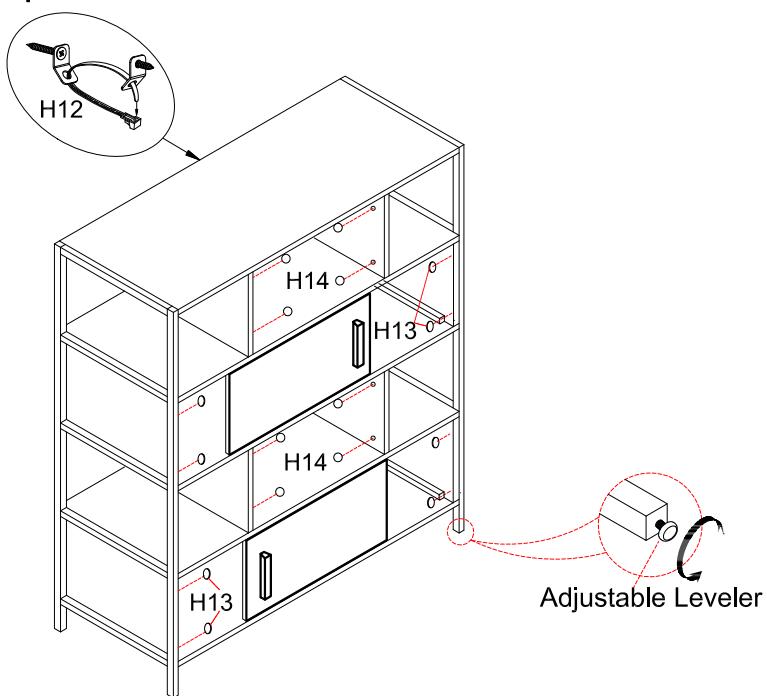

If the door is not level,  
it can be turn the  
bottom roller up  
or down to adjust.

### Step 12.

- 1) If you do not want to see the bolt holes, please put the paster (H14) to cover the holes on the divided panels (P5) as shown.
- 2) Put the plastic pads (H13) on the divided panels with rails (long) (P6) as shown to protect the door from knocking. Assembly is complete. **Failure to follow these instructions may cause the bolts to misalign during assembly.**
- 3) **Recommend that you attach the products to your wall as a safety precaution.** Please see the other instructions "Furniture Safety Bracket Tip Resistant".

# Furniture Safety Bracket Tip Resistant

- Designed to help prevent furniture tipover.
- Detachable strap allows for easy moving of furniture for cleaning.
- Also helps prevent furniture from tipping during minor tremors.

## Short Screw (1pc)

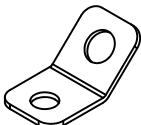

## Long Screw (1pc)

## Strap (1pc)

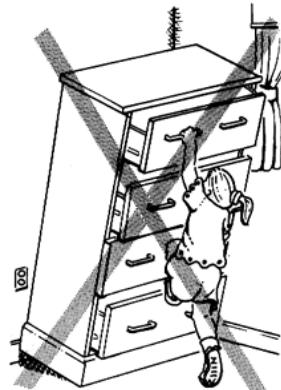

## Bracket (2pcs)

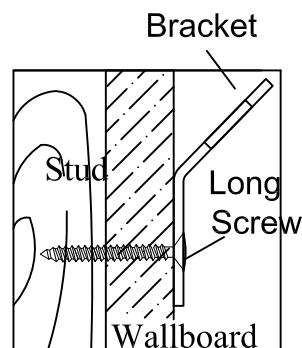

## Installation:

1. Locate a wall stud behind your furniture. Position a bracket on the stud approximately 1" below the top frame of the furniture. Mark and drill pilot hole into the center of the stud with a 3/32" drill bit. Attach a bracket to the stud with the long screws provided.

2. On the back of the furniture, a bracket will need to be attached to the furniture frame at the top. To do this, temporarily move the furniture into its final position and mark the location of the wall bracket on the furniture frame. Move the furniture away from the wall and place a bracket on the mark. Mark and drill holes for screws with a 3/32" drill bit. Attach the bracket to the furniture with the short screws provided.

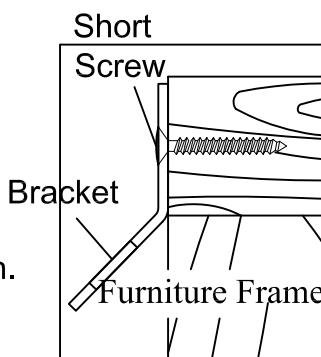

3. Move the furniture into its final position, taking care to line up the wall bracket with the furniture bracket. Thread a strap through the bracket as shown in the illustration. Tighten strap until snug. Do not overtighten.

## Important:

Check to be sure the wall bracket is firmly screwed into wall stud, the furniture bracket is firmly attached to the frame, and the strap is snug.

## Caution:

This product is not to be a substitute for proper parental supervision. Manufacturer assumes no liability for improper installation or excessive loads placed on screws brackets or straps.

## Warning:

Children have died from furniture tipover. To reduce the risk of furniture tipover:

- ALWAYS install tipover restraint provided.
- NEVER put a TV on this product.
- NEVER allow children to stand, climb or hang on drawers, doors, or shelves.
- NEVER open more than one drawer at a time.
- Place heaviest items in the lowest drawers.

This is a permanent label.

Do not remove!
